

U.S. NATIONAL BIM PROGRAM FOUNDING PARTNERSHIP PROGRAM

U.S. National BIM Program Founding Partnership Prospectus

The National Institute of Building Sciences initiated the U.S. National BIM Program (NBP) to bring industry stakeholders together to achieve critical digital transformation throughout the entire lifecycle of designing, constructing, and operating the built environment.

The Program's concept has evolved through collaborations with leading organizations and communities, involving both the public and private sectors, spanning a diverse cross-section of asset/project types. This effort has recently accelerated with significant interest from the U.S. owner community, including both building and infrastructure owners.

In 2023, the Program will build the foundation for accelerating digital transformation and finalize the five-year plan with the Steering Committee that includes key influencers within the U.S. built asset industry. This is your corporation's opportunity to help convene an innovative community of stakeholders and expand your partner relationships. You will be instrumental in advancing the adoption of next-generation standards, such as the National BIM Standard - United States Version 4 upcoming release. Your involvement also will help develop the educational strategy among all sectors of the built environment while simultaneously bringing key results to the public and private sectors within all markets.

Become a Founding Partner in 2023 and receive guaranteed recognition, benefits, and access throughout the five-year National BIM Program Roadmap. 2023 Founding Partners also receive the added benefits of a complimentary NIBS BIM Council Platinum Sponsorship and a NIBS Unlimited Organizational Membership.

NIBS BIM Council Platinum Sponsorship Benefits (\$50,000 value)

- Opportunity to designate up to fifteen (15) individuals to participate on the NIBS BIM Council
